**Book Reviews**

***Knitting Nell*** Review by Chrisma Edwards *Knitting Nell* is a young children's book by Julie Jersild Roth. This is a book to inspire young children to start knitting. Nell is a young girl that knits all the time and she is looking for some young children to join her. In the book, Nell came up with a "Good scarf project". The Good scarf project, Nell and her friends hope to promote, is to get young children to start knitting. This project is for individuals or groups to knit pieces of what will become a virtual scarf online at [www.goodscarfproject.org](http://www.goodscarfproject.org). Come to Hill Creek Yarn Shoppe or go to [www.goodscarfproject.org](http://www.goodscarfproject.org) for more information about the project or the book.

***Unexpected Knitting*** Review by Kirsten Richards Not Just a Coffee Table Book... Although full of beautiful photographs, Debbie New's *Unexpected Knitting* is much more than "pretty." Whether you are interested in knitting your own teacup, photograph, or functional lace boat you are sure to find something of interest in this book. Debbie New embraces knitting with infectious joy and curiosity. Even if you never knit a single item from this book, you'll feel enriched just by sharing her explorations.

In this book, Debbie introduces several exciting techniques, including labyrinth and swirl knitting. In labyrinth knitting, a single continuous strip is knit, turning corners this way and that as the needles wind their way around the project. When the strip is finished it is laid flat, it magically takes on the shape of a sweater. When the seams are joined an intricate maze pattern winds its way across the entire sweater. With swirl knitting, Debbie has developed an innovative charting technique for planning free-form swirls. Knitting is no longer restricted to squares and lines when it can pour forth from the needles in meandering paths and soft swirls. Swirl knitting is a great stash-buster. Hillcreek Yarn Shoppe offers classes in both of these unusual and captivating techniques.
