

**Weaver's Craft Magazine**, by Jean Scorgie. In addition to offering individual issues, we continue to carry and maintain full sets of **Weaver's Craft Magazine**, now 30 issues. Each issue focuses on a special weave structure or technique. It is filled with projects using that technique and always includes many additional tips and tricks for weavers. Jean assures me Issue 31 will be available on Rep Weaves by the June Midwest Weaver's Conference. We offer full sets of these morsels of great weaving tips and techniques at a discount, complete with an index I have compiled of the contents of all issues. For example: Canvas Weave, Huck and Swedish Lace, Easy Plaids, Overshot, Summer and Winter, Monks Belt, Complimentary Plain Weave, Mock Satin Damask, Gingham Towels, Turned Drafts, M's and W's, Baby Blankets, Barleycorn, Spot Bronson, Log Cabin, Waffle Weave, Bound Weave, Petit Point, and much, much more. Jean was editor of *Handwoven* magazine for many years. Her instructions are very clear and easy to understand. This is a classic set of issues, basic to every weaver's library. The full set would regularly cost \$205.90 if issues were bought separately. Our full sets, including my complete Index of all issues, is only \$175 — a 15 percent discount (the equivalent of FOUR FREE ISSUES!)

**Vintage Textile Industry Spindles and Spools — \$5 each**

Speaking of Spring Cleaning, we rediscovered these which we picked up in North Carolina decades ago. The hardwood spindles are 18 inches long and 3/4-inch in diameter. With a little sanding they could be turned into fat knitting needles (making a come-back). The spools are 3x4-inches, the ends of which are made of a hard compound (fore-runner to plastic?). Many of the spools are filled with either a fine white cotton or a red fiber yarn. We have dozens of each. Any creative ideas?

**Videos - discounted 40%**

With the advent of U-tube and other avenues for learning, DVD's are perceived by many as not as useful. However, many subject matters are much more thoroughly shown by experts in their field on DVDs especially made for a more thorough coverage of the subject. Here are listed just a few of the videos we would like to clear from our shelves. Please check our catalog or web site secure shopping cart for a full listing of all the videos we carry.

**Special Events**

I plan to attend the annual WARP (Weave A Real Peace) conference in the San Francisco area the end of May. (And to visit my two youngest brothers, whom I haven't seen since my dad's memorial nearly three years ago. They weren't able to make our family canoe/kayak trip down the Missouri River last summer.) WARP is an international organization which works with indigenous communities around the world in learning, developing, and assisting them in marketing their own textile products. I'm very interested in becoming more involved. Will give a further report in our fall newsletter.

**Using the HFS WebStore Missing us at shows? We miss you, too.** You may still order supplies through our comprehensive on-line web store [www.hillcreekfiberstudio.com](http://www.hillcreekfiberstudio.com). If you have questions about any supplies and/or how to place an order, please call our toll-free number: 1-800-874-9328 (TRI-WEAV). We now accept **PayPal**.
