

CLASSIFIEDS: Equipment

Used 4-shaft baby wolf floor loom and Warping Frame, good condition \$750.

FOR SALE: An old fashion working wheel made in Canada by Theodore Borduas (since it was made in Canada it is called a "working wheel" not a "spinning wheel"). It stands 45" high from the floor to the top of the wheel, 48" long from the edge of the wheel to the tension bar, and 22" wide at the bottom of the legs. Drive wheel diameter is 30". I had 3 extra bobbins/spools made for it, so it has 4 of them total. Asking \$750.00.
